Test Display Preferences:
1. Open a new App instance
2. Create a new account (or use an existing one)
3. Login with the new (or old) account
   a. Should see the app homepage
   b. Check the debug console to ensure the correct user was logged in
4. Hit 'Preferences'
5. Under "Adjust Font Size:"
   a. Adjust the scroll bar
   ☐ Ensure you are able to select a wide range of font sizes via this bar (Acceptance Criteria #1)
   b. Note the corresponding change in font size on all fonts on the page
   c. Go back to the homepage
   ☐ Ensure all the text attached to the homepage (ie. buttons etc.) has been adjusted to the corresponding size (Acceptance Criteria #4)
6. Hit 'Preferences'
7. Under "Select Font Type:"
   ☐ Ensure there are a selection of fonts to choose from (Acceptance Criteria #2)
   a. Select a new font
   b. Note the corresponding change in font type on all fonts on the page
   c. Go back to the homepage
   ☐ Ensure all the text attached to the homepage (ie. buttons etc.) has been adjusted to the corresponding font type (Acceptance Criteria #5)
8. Hit 'Preferences'
9. Under "Select Font Color:"
   a. View the color options dropdown
   b. Select a new color
   c. Note the corresponding change in font color on fonts on the page
   d. Go back to the homepage
   ☐ Ensure that text on the homepage has changed to the corresponding color (Acceptance Criteria #3)
10. Hit 'Log Out'
11. Close out the App
12. Open a new App instance
13. Login with the same account
☐ Ensure that the font size, type, and color have remained the same as the options you changed them to in the previous instance (Acceptance Criteria #6)
14. Hit 'Add Plot' (using any data)
    a. Make any allowed selections for data type and the x and y axes
    b. Click 'Create Graph'

15. Note the color of the rendered plot
16. Hit 'Preferences'
17. Under "Select Plot Color:"
    a. View the color options dropdown
    b. Select a new color
    c. Go back to the homepage
    ☐ Ensure the plot has changed colors to the desired color from the dropdown in the preferences (Acceptance Criteria #7)
18. Hit 'Add Plot' (using any data)
    a. Make any allowed selections for data type and the x and y axes
    b. Click 'Create Graph'
    ☐ Ensure this newly added plot is the same color as selected in the preferences from before (Acceptance Criteria #8)
